NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22161. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

EDITORIAL EXPLANATIONS

(1) This simplified handbook on administrative divisions has been compiled from data available at the end of 1978 on administrative divisions of county level and above throughout the country.

(2) According to Article 34 of the New Constitution, "A provincial revolutionary committee may establish prefecture administrative offices as its branch offices." In all provinces and autonomous regions throughout China, the originally established prefecture revolutionary committees have been renamed prefecture administrative offices. In this handbook, the names in parentheses immediately following the prefecture and county level administrative units indicate the locations of the revolutionary committees of those autonomous prefectures and counties as well as the locations of the prefecture and league administrative offices.
